More goods are bought and sold through the Classified Business Lists of the Directory than any other medium on earth.

Stability — Reliability?

Do you realize that a City Directory advertisement is important to the permanency, reliability of the advertiser?

That's the sort of company all of us want to patronize because we know where they will be next year, where they are. Stability is in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or "gyp-sy-like" concerns rarely appear in the City Directory.

And it is a well-known fact that the concerns which advertise year in year out are those upon which people depend.

Do any of your competitors appear in the Directory? If not, why not? It is doubly effective.

May we say, in how and why it will pay you?
